15.2.2. Sustainably farmed food on campus

Kalasalingam Academy of Research and Education (KARE) promotes sustainable production of food through cultivation of various agricultural and horticultural crops. The attainment of sustainable food production in KARE has been achieved with the availability of instructional farm land at university campus including crop cafeteria, Alagapuri farm and Gopinayakkanpatty farm with an area of 58 acres, 62 acres, and 220 Acres {(50 acres under cultivation) and (45 acres- second phase of land preparation)}, respectively. These farm lands are dedicated to students taking life exploration, hands-on trainings and development courses within the General Education program. The harvested farm produces were sold to the university workers and local people through sales counter at subsidized price in the university premises. The land allotment and crop cultivated details are given in Table 1 and 2. The glimpses of farm land at different farm lands in Figure1,2, 3 and the sales counter in figure 4.
