THE - Impact Rankings 2026

16.3.1 Provide Expert advice to Government

Consultancy on Civil Projects

The Department of Civil Engineering at Kalasalingam Academy of Research and Education (KARE) provides professional consultancy services and technical advice to various government departments and public agencies. The faculty members and experts from the department offer their knowledge in areas such as structural design, material testing, geotechnical investigations, construction quality assessment, and water resource management.

KARE's Civil Engineering team undertakes consultancy works for Public Works Department (PWD), local municipalities, Highways Department, and rural development projects. The consultancy services include testing of building materials, soil and concrete quality checks, mix design, and structural stability certifications. Reports and test results are officially submitted to the respective government departments for use in construction and infrastructure projects.

Through these activities, KARE supports the government in ensuring safety, sustainability, and quality in public infrastructure. These consultancy services not only generate practical solutions for the community but also help faculty and students gain real-world exposure to civil engineering applications. The recognition and appreciation received from client departments highlight KARE's contribution as a reliable expert body in civil project consultancy.

S. No	Financial Year	Name of the Faculty	Client Organization	Title of Consultancy	Amount Received	Date of Amount Received
