THE - Impact Rankings 2026

**Strengthen the means of implementation and revitalise
the Global Partnership for Sustainable Development**

17.4.3 Education for SDGs in the wider community

Kalasalingam Academy of Research and Education (KARE) actively extends SDG-related education beyond the campus to empower the wider community. Through structured outreach initiatives, training programs, and collaborative engagements, the institution promotes awareness and action aligned with the UN Sustainable Development Goals.

KARE integrates service-learning components into various academic programs, enabling students to participate in projects that address real community challenges such as clean water access, environmental conservation, rural development, health and well-being, and quality education. These activities strengthen students' experiential learning while directly contributing to societal progress.

The university facilitates internships and field engagements with NGOs, government agencies, local bodies, and community-based organizations working in sustainability and social development. Students gain hands-on exposure to SDG implementation while supporting ongoing community development initiatives.

Additionally, KARE conducts awareness campaigns, capacity-building workshops, and training sessions for school students, rural communities, farmers, self-help groups, and local stakeholders. These programs focus on climate action, waste management, renewable energy, digital literacy, health awareness, and responsible consumption—helping to embed SDG principles within the community.

Through these continuous initiatives, KARE strengthens its role as a catalyst for sustainable development, actively bridging academia and society to advance the SDGs at the grassroots level.

Skill training program to local communities

Kalasalingam Academy of Research and Education (KARE) conducts dedicated skill training programs for local community members to enhance their employability and support sustainable livelihood development. These programs focus on equipping participants with industry-relevant, practical skills that align with current job market needs, thereby promoting economic empowerment and self-reliance.

Training modules include hands-on sessions in areas such as digital literacy, tailoring, basic electrical and electronics maintenance, agro-based technologies, entrepreneurship development, and craft-based skills. The programs are delivered by qualified faculty, technical experts, and trained student volunteers, ensuring accessible and high-quality learning experiences.

Through these initiatives, KARE strengthens community capacity, supports income generation opportunities, and contributes to the socio-economic development of the surrounding region.

About the program

Women play a vital role in sericulture industry. The awareness program mainly aims to create awareness about employment opportunities related to sericulture. The selected women farmers are involving various agricultural activities. The village president joined this awareness program to motivate the women farmers for doing various activities related to sericulture. 25 women farmers are actively participated and the interested women farmers are selected for further training programme.

The programme started with prayer song by field assistant Ms.Arulsakthi and PI Dr.L.Muthulakshmi gave the information about available employment opportunities for women farmers. The employment activities include mulberry cultivation and nursery mainataince, young age silk worm rearing and reeling process. And further by product development from silkworm pupae waste.

About the Kadaneri Village

KALASALINGAM
ACADEMY OF RESEARCH AND EDUCATION
(DEEMED TO BE UNIVERSITY)
Under sec. 3 of UGC Act 1956. Accredited by NAAC with "A++" Grade

Kadaneri is the one of the DSIR selected Village. In this village the people are living the normal life style. The village having around 800-1000 families. Kadaneri is having one government school till 5th Std. In this village women are very good work in the Agriculture activity. After awreness programme women farmers are registered their name in sericulture training. The selected candidate data will transfer to srivilliputhur sericulture unit for further assessment.

Field visit

After lunch the women farmers are visited 3.5 Acre land agriculture land at kadaneri village. PI Dr.L.Muthulakshmi demonstrated about the land preparation for mulberry cultivation and maintenance of mulberry garden and chawki worms' maintenance, government subsidies. One of the women farmers from the village Mrs. G.Murugeswari is willing to involving sericulture and she is having 2.5acre of waste land with trip irrigation water facilities. The identified women farmer informed to AD.Nisha and Jeyalakshmi from sericulture unit srivilliputhur.

Training on Quality Cocoon Production and Making Cocoon Handicrafts

Kalasalingam Academy of Research and Education (KARE), in collaboration with local self-help groups, rural development departments, and community-based organizations, conducted a specialized Training Program on Quality Cocoon Production and Cocoon Handicraft Making. This initiative was designed to empower rural women, farmers, and youth by enhancing their skills in sericulture and developing value-added products from cocoons.

Objectives of the Training

- To provide hands-on knowledge on scientific methods of quality cocoon production.
- To promote sustainable income-generation opportunities through cocoon-based handicraft making.
- To support rural entrepreneurship and skill development aligned with SDG-1 (No Poverty), SDG-5 (Gender Equality), SDG-8 (Decent Work and Economic Growth), and SDG-12 (Responsible Consumption and Production).
- To strengthen community livelihoods by integrating traditional skills with modern techniques.

Awareness programme on Diabetes mellitus

EVENT SUMMARY

Name of the event : Awareness about Diabetes mellitus

Date of the event : 30 th November 2023

Time : 10.00 am- 01.00 pm

Target Audience : Peoples residing Ramachandrapuram rural area

No. of participants:

Theme of the Event : Access to Diabetes mellitus Know your risk- Know your response

Venue : Pillayar temple (Near Panchayath union office)

KARE-Women empowerment cell, arranged this awareness programme on the topic Access to DM- Know your risk, Know your response special awareness speech delivered by Dr.Susan Judith, Principal, ALLIED HEALTH SCIENCE, KARE to the community peoples. DM is the ice-berg disease. It is a group of metabolic disorders characterized and identified by the presence of hyperglycemia in the absence of treatment.It includes in defects in insulin secretion, insulin action or both and disturbances of carbohydrate, fat and protein metabolism. The magnitude of this problem is low in low income country, high in upper and middle income country. Unfavourable modification of life style and dietary habits that are associated with urbanization are believed to be the most important factor for the development of diabetes. The prevalence of diabetes is approximately twice in urban areas than in rural population. Unfortunately, there is still inadequate awareness about the real dimension of the problem among the general public.

Handcraft products prepared by the community people is now available in online shopping mart "meesho"

Handcrafted products made by community members are now available on the online shopping platform "Meesho." This initiative provides artisans and craftspeople with a wider market for their unique creations, allowing them to showcase their skills and traditional crafts to a broader audience. By leveraging e-commerce, community members can enhance their income and promote their cultural heritage, making their products accessible to customers across the country. This partnership not only empowers local artisans but also supports sustainable economic development within the community.

KALASALINGAM

ACADEMY OF RESEARCH AND EDUCATION

(DEEMED TO BE UNIVERSITY)

Under sec. 3 of UGC Act 1956. Accredited by NAAC with "A++" Grade

Subtotal (General)	2639600	2639600
Total Project Cost (Cap. + Gen.)	2639600	2639600

2. The sanction of the President is also accorded to the release of Rs. 21,00,000/- (Rupees Twenty One Lakh only) to the "Director/Registrar/Principal/Controller/Comptroller, KALASALINGAM ACADEMY OF RESEARCH AND EDUCATION" being the First installment of grant as mentioned above table under "General Component" for the above mentioned project.

3. The expenditure involved is debitable to Demand No. 89, Department of Science & Technology for the year 2023-24:

3425	Other Scientific Research(Major Head)
3425.60	Others : (Sub-Major Head)
3425.60.200	Assistance to Other Scientific Bodies(Minor Head)
3425.60.200.70	Innovation,Technology Development and Deployment
3425.60.200.70.00	Detailed Head
3425.60.200.70.00.31	Grants-in-aid General
	(Previous: 3425.60.200.08.05.31)

4. The amount of ₹ 1/- (Rupee One only) against the sanctioned amount of 21,00,000/- (Rupees Twenty One Lakh only) will be drawn by DDO, DST and disbursed to the "CNA account of SERB in respect of Innovation,Technology Development and Deployment Scheme".

Name of A/C Holder	Innovation Technology Development and Deployment
Bank A/C No	349902010051240
Name of the Bank & branch	Union Bank of India, Safdarjung Enclave - New Delhi
RTGS/IFSC code	UBIN0534994

5. CNA shall assign/allocate the amount of Rs. 21,00,000/- (Rupees Twenty One Lakh only) to the Director/Registrar/Principal/Controller/Comptroller, KALASALINGAM ACADEMY OF RESEARCH AND EDUCATION" as per details given below:-

Name of A/C Holder	Kalasalingam Academy of Research and Education
Bank A/C No	627302010016648
Name of the Bank & branch	Union Bank of India
RTGS/IFSC code	UBIN0562734

6. As per Rule 234 of GFR 2017, the sanction has been entered at S. No 215 . in the register of grants maintained in the NCSTC for the scheme SCIENCE COMMUNICATION THROUGH TRADITIONAL AND NOVEL METHODS AND LOW COST TEACHING AIDS .

7. This issues with the concurrence of IFD vide their Concurrence Dy. No. IFD/C/III/140723/31/01225 dated 14/07/2023.

8. The GI will keep all the funds received in the Central Nodal Account only and shall not transfer the funds to any other account or not divert the same to Fixed Deposits/ Flexi-Account/ Multi-Option Deposit Account/ Corporate Liquid Term Deposit (CLTD) account etc. The funds released to GI shall not be parked in bank account of any other agency.

9. The GI will ensure the compliance of OM. No. F. No. I(18)/PFMS/FCD/2021 dated March 9, 2022 of Department of Expenditure, Ministry of Finance.

10. Registration on NGO Darpan Portal-Unique Number/ID: TN/2017/0117848.

11. This sanction order is subject to the Terms & Conditions as annexed .

Capstone project

A capstone project at a university serves as a culminating academic experience, allowing students to apply their knowledge and skills to real-world challenges. Typically undertaken in the final year of a degree program, this project involves research, problem-solving, and collaboration. Students often work individually or in teams to create a comprehensive project that showcases their expertise, which may include a written report, presentation, or practical application. Capstone projects not only enhance learning but also prepare students for their future careers by providing valuable hands-on experience.

Abstract: Plant monitoring system is one of the most important tasks in any farming or agriculture-based environment which helps farmers for irrigation. An automated IOT based water system for monitoring and maintaining the farms is approximate moisture content in soil based on temperature, humidity, rainfall and light intensity. They can record the temperature values daily. Farmers can know which farm will soil that particular soil based on their sensor values analysis. The main goal of this automation is to aid the farmer yielding more crops, optimal use of water supply (some areas have drought lands). They can save this feature very efficiently, decision of crop. Our automated IOT based water supply provides efficient resource allocation and yields high accuracy in temperature with existing Arduino UNO. Overall it reduces economic cost and human intervention.

Community Service/Focused Project

A community service or focused project at a university is designed to engage students in meaningful work that benefits local communities. These projects often involve collaboration with community organizations and address specific social, economic, or environmental issues. Students can gain practical experience while developing skills such as teamwork, leadership, and problem-solving.

Typically, these initiatives encourage students to apply their academic knowledge in real-world contexts, fostering a sense of social responsibility and civic engagement. Projects may include activities like tutoring, environmental conservation, health awareness campaigns, or infrastructure development, contributing positively to both the community and the students' personal growth.

Some of the Sustainable Community Service projects by students are listed below:

Beneficiaries	Title	Participants	Project duration
Women Safety	GPS and Live Tracking Arduino Device for Women Safety	6	3 months
Women Safety	Women Safety Android	4	4 months
Public.Drivers	Enhancing Multilingual Interaction with Language translation	5	6 months
Public.Drivers	Predicting the quality of vegetables by using learning application with machine	8	3 months
Public.Drivers	Implementation of Automatic IoT based Solar power tracking system	10	3 months
Public.Drivers	Railway Track crack detection	6	4 months
Public.Drivers	Quality Assurance of Milk	5	4 months
Public.Drivers	Caretaker management for old people using IOT	5	4 months
Public.Drivers	ATM crime detection using image processing integrated video surveillance	4	3 months

Design Project - EXSEL

A design project conducted at the University for the welfare of the community involves collaborating directly with community members to identify their needs and challenges. In this initiative, students gather problem statements through surveys, interviews, or workshops, ensuring that the projects are grounded in real-world issues faced by the community.

Once the problems are identified, students work in teams to develop innovative solutions, applying their design and engineering skills. These projects not only address specific community needs but also encourage students to engage with the community, fostering collaboration and understanding. The outcome may include prototypes, strategic plans, or other tangible deliverables that can be implemented to improve the quality of life for community members. This hands-on approach helps students learn about social impact while contributing to the welfare of the community.

Sustainability project awards to students:

Kalasalingam Academy of Research and Education (KARE) actively encourages student innovation in sustainability by recognizing outstanding projects that contribute to the Sustainable Development Goals (SDGs). Each year, students who develop impactful, solution-oriented projects addressing environmental, social, and economic challenges are honored with Sustainability Project Awards.

These awards celebrate student initiatives in areas such as renewable energy solutions, waste reduction technologies, water conservation systems, inclusive community development models, sustainable product design, and green campus innovations. The recognition aims to motivate students to apply scientific knowledge and creative thinking toward real-world sustainability issues.

Award-winning projects are evaluated based on their impact, innovation, feasibility, scalability, and alignment with SDGs. This initiative fosters a culture of sustainability on campus, promotes interdisciplinary problem-solving, and inspires students to become responsible global citizens contributing to sustainable development.
