EQUALITY

---

#### 5.3.3 Women's Access Schemes

Our university adopted a Mentor Mentee scheme which is necessary for the personal and Professional growth of all students and succeed in learning and development within the Campus. Each faculty member should not have more than 30 students with them. The mentors will counsel students on academic and non-academic issues as required in order to take care of the overall growth and development of students

Mentorship is also provided for the new staff members to identify and explore the potential and capabilities of the young and new staff. This improves the quality of performance of staff and faculty and enhances and develops them personally and professionally.

- KARE inhouse software is used for regular monitor of student's performance in terms of academic and personnel issues. This platform aids for regular monitor and improve the academic level for their successful completion of studies as well as to address core inequalities in access and participation, from a very early stage.

2	Online virtual internship / IUCEE-Webinars	Not Available	Newly added (Page No.6)
3	Gate Coaching	Not Available	Newly added (Page No.6)

## Mentor – Mentee Meeting

All Course Coordinators are required to organize mentor–mentee meetings to ensure continuous monitoring and support for students’ academic and personal development. During these meetings, mentors should gather detailed information regarding each student’s academic performance, attendance, internal assessment results, and participation in both curricular and co-curricular activities. In addition to academic progress, discussions should also cover non-academic aspects such as involvement in extracurricular programs, personal well-being, and any difficulties or concerns faced by the students. Mentors should provide appropriate guidance and counseling to help resolve issues and motivate students to achieve their academic and personal goals. The minutes of each meeting, along with the summary of issues discussed and actions taken, should be documented and submitted to the Head of the Department for review. Regular follow-up on previously discussed matters should be ensured to track student progress and maintain a supportive learning environment.

### KAFKA Emergency SOS System:

- The KAFKA Emergency SOS System is an emergency device installed within the girls' hostel premises.
- It features dedicated buttons for users to instantly relay real-time, accurate information to the appropriate authorities responsible for plumbing, fire safety, or electrical issues.
- These separate buttons ensure that the correct service can be alerted quickly, enabling faster response and assistance for girls in emergency situations

## Several Subroutine bodies establishment for Women and female students

### Students' grievance redressal committee:

The committee promotes a positive learning environment by resolving conflicts through discussion and mutual understanding. It also monitors the implementation of decisions to make sure that students' rights and welfare are protected.
